EXPERIENCE

BACKEND DEVELOPER

Hyperlink Infosystem

2021 - 2023

I have been working here as a Full Stack developer and developing scalable and testable code. I have worked on more than 5 applications, developed APIs and admin panels in Node JS and Laravel respectively.

PROJECTS

- Transcending Black Excellence

This is an E-commerce application to enable the customer to purchase products from it and here I have integrated Stripe for the payment gateway.

- Covieasy

This application is used to generate the report (PDF) to check how many COVID-19-positive cases are in your family and share generated PDF with anybody. To get updated and recent COVID-19 results I have integrated ICMR third-party API.
